Perfection is our vocation
Precision is our passion
Service our philosophy
We value your trust!

Our main areas of treatment:

- **Holistic dentistry** (preventative dental medicine for overall health and well-being)
- **Strong tooth replacement materials** (titanium, zircon, ceramic)
- **Aesthetic tooth reconstruction** (complete ceramic crowns and inlays, veneers)
- **Endodontology** (root treatment, tooth maintenance)
- **Orthodontistry** (regulation of tooth placement)
- **Periodontology** (health and well-being of gums)
- **Implantology** (synthetic tooth roots)
- **Bone Check**
- **Guided Bone Regeneration**
- **Facial Rejuvenation** (aesthetics, lip enhancements)
- **Bleaching**
- **Dental Hygiene**
- **Treatments performed under full anaesthetic** (a gentle approach under the guidance of our anaesthetic team)

Interdisciplinary diagnostics, treatments and therapies are our strengths.

Our treatment methods are gentle, sensitive and Effective.

A first-class dental technician based in Munich exclusively makes your tooth replacements.

... what our patients say about us ...

"It was a sensational feeling, to have permanent teeth again after such a long time. Nuts or a bread crust – it doesn't matter, nothing could move my denture now."

Dr. H-J.K., 58 years old, Consultant, Unterumbach near Munich

"Six of my back teeth were split down to the root following a sports accident . . . I am really happy that there are such things as implants today. Only a few years ago, I would not have had the choice and it would have meant that I was 29 years old with a denture in my upper jaw."

Mrs. D.W., 29 years old, Business Management Graduate, Munich

"I have the feeling that I have got my own teeth again and my family and friends are forever offering words of admiration about how beautiful they are."

Mrs. C.H., 74 years old, Retired Company Owner, Rain am Lech

"It is hard to describe the feeling of having a permanent denture – without wanting to mention how good it looks."

Mr. H-J.R., 61 years old, Sales Representative, Munich

"One thing is for sure: nobody notices that instead of a real front tooth I have an implant with a crown, that's how real the tooth replacement looks."

Mr. O.B., 71 years old, Architect, Munich
